MEMORANDUM FOR: Mr. [   ]
Chairman, 4-C Working Group
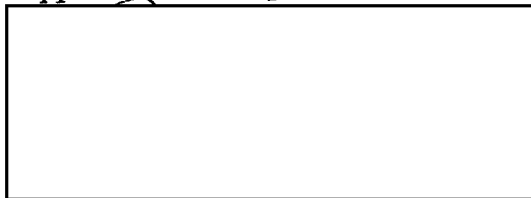

FROM : [   ]
SA to the DCI for Compartmentation

SUBJECT : APEX Control Facility Register

1. The APEX Steering Group, on this date, after extensive discussion, reached a consensus that 4-C should include what is called in the attached either Option III or IV. A copy of the relevant portions of the 5 August APEX Steering Group Minutes will be forwarded when ready. Mr. [   ] of your office, was present at the meeting.

STAT

2. There was no consensus on Option III vs. IV, nor do I wish to take a position until the details and costs of the two options are further fleshed out. The <u>principal</u> concerns are that adequate suppression exist for agency privacy and that the Register replace, in whole or part, some of the existing labor of the various Community members.

3. With full satisfaction of the consensus about suppression assumed, <u>all</u> ASG members support either Option III or IV.
